

QF28Y

Hydraulic Angle Notching Machine

- ▶ Fixed Angle Cutting
- ▶ Single/Inch Operation
- ▶ Fast Positioning System
- ▶ Low noise, High efficiency

- Sheet metal clamp

- Upper and bottom blade

- Oil lubrication

- Foot switch

- Dimension positioning system

- Discharge port

QF28Y Fixed Angle Hydraulic Notching Machine

QF28Y fixed angle hydraulic notching machine is used to cut 90° for metal sheet, which features high cutting speed, compact structure, easy operation.
